

2022 Q3 Investor Conference

Safe Harbor Statement

Statements in this presentation that are not strictly historical, including the statements regarding the market, economy, the Company's ePaper and other business, the Company's future product launches, the Company's positioning and expectations for 2022 and future periods, and any other statements regarding events or developments that we believe or anticipate will or may occur in the future, may be "forwardlooking" statements within the meaning of the securities laws in Taiwan. There are a number of important factors that could cause actual events to differ materially from those suggested or indicated by such forward-looking statements and you should not place undue reliance on any such forward-looking statements. These factors include, among other things, the uncertainty in the economy , contractions or growth rates and cyclicality of markets we serve, competition, our ability to develop and successfully market new products and technologies and expand into new markets, our ability to successfully identify, consummate and integrate appropriate acquisitions, contingent liabilities relating to acquisitions, risks relating to potential

impairment of goodwill and other long-lived assets, currency exchange rates, our compliance with applicable laws and regulations and changes in applicable laws and regulations, tax audits and changes in our tax rate and income tax liabilities, litigation and other contingent liabilities including intellectual property and environmental matters, risks relating to product defects and recalls, the impact of our debt obligations on our operations, raw material costs, our ability to adjust purchases and manufacturing capacity to reflect market conditions, legislative reforms and other changes in industry, labor matters, our relationships with and the performance of our customers and partners, risks relating to manmade and natural disasters, our ability to achieve projected cost reductions and growth, and international economic, political, legal and business factors. These forward-looking statements speak only as of the date of this presentation and the Company does not assume any obligation to update or revise any forwardlooking statement, whether as a result of new information, future events and developments or otherwise.

Commit to Using Energy Productively

°CLIMATE GROUP EP100

Eink

► The first display company to join EP100

E Ink is the originator, pioneer, and commercial leader in ePaper technology. The company delivers its advanced display products to the world's most influential brands and manufacturers, enabling them to install extremely durable, low power displays in previously impossible or unimaginable applications and environments.

The company commits to implement an energy management system (EnMS) across all operations by 2030 and improve energy productivity by 100% by 2040, relative to a 2018 baseline year.

Linkou, Taiwan

Moving toward Carbon Neutrality

► The global first Carbon Neutral Bus Stop Operation-management System

The system composed by 1,500 sets of Bus Stop Display with Solar Energy Supply have achieved Carbon Neutral benefited from its low power consumption characteristic.
